

## HOW IT WORKS

Nook was created to help diverse brains to settle and focus. Its intimate personal space, powerful acoustics & adjustable lighting combine to create a semi-private refuge where people feel safe and calm, promoting greater concentration and engagement.

OPEN SHELTER

SOLO BOOTH

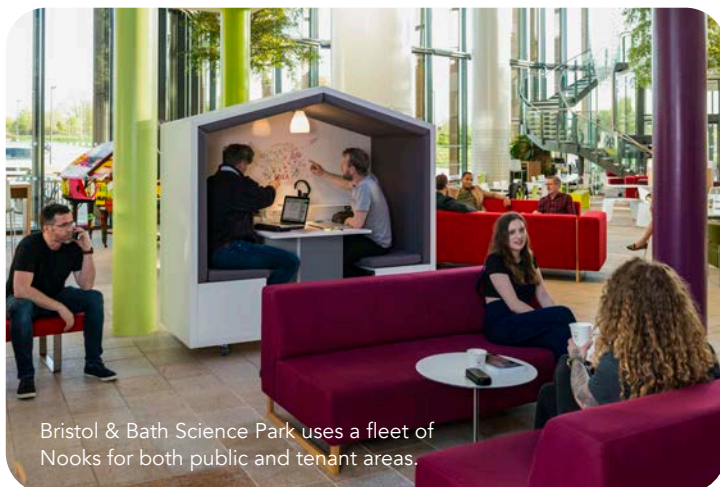

The modular, mindful, mobile design of Nook was built with the coworking community and flexible office space in mind.

It enables one environment to accommodate breakfast meet-ups, countless meetings, deep work, networking, lunch gatherings and events.

An active social space needs quiet sanctuary spaces as well as high levels of dexterity, both of which Nook provides.

## BENEFITS

- Improve space utilization and responsiveness
- Useable for meetings, events and personal work
- Activate challenging areas - EG corridors, under stairs
- Revenue generating 1to1 consultation space for sponsors
- Improve Neuroinclusivity and accessibility
- Use structurally, to divide space, saving on infrastructure

Bristol & Bath Science Park uses a fleet of Nooks for both public and tenant areas.

## REVIEWS

### BRISTOL BATH SCIENCE PARK, UK

*Our tenants love using the Nooks and we love their flexibility as we often need to change things around for different uses.*

**SOUTH WEST GROWTH HUB** By adding sponsor graphics to the Nook, it will pay for itself eventually then become revenue positive. It also helps us make use of a space under the stairs.

### EDGE WORKSPACE, AMSTERDAM

*The Nooks are a perfect addition to our workspace. We change the pods locations regularly and use them for events & as a mobile workspaces.*

A sponsored Nook activates an under-stairs space at Plymouth Science Park.

## SUMMARY

Nook is a long-term asset for coworking and flex-office spaces, solving COVID related distancing issues today and adding agility and wellbeing for tomorrow.

Improve tenant welfare, space utilization, responsiveness to change and potentially generate additional revenue.
